Work Experience

Portfolio Web: [Udbhav Prajapati](#)

GROOVY TECHNOWEB PVT. LTD

Software Development Intern:

DEC-2024 - MAR-2025 (4 months)

- Developed an online food ordering system using the MERN stack during a full-time(on-site) internship, managing all frontend components with responsive design (Grid/Flex), Material UI, and Lottie animations.
- Implemented state management via Redux, generated order reports using React-Chart, and ensured a user-friendly, fully responsive UI.
- Integrated frontend with backend using Axios, contributed to API development, and connected to MongoDB Atlas, gaining hands-on experience in full-stack development.

Education

Dharmsinh Desai University:

Pursuing Master Of Computer Application (CPI:8.2)

June-2025 April -2027*

Bachelor Of Computer Application:

June-2022 April -2025

Graduated with First Class with Distinction (72%)

St Mary's High School:

June-2021 April -2022

12th HSC Commerce:

Result: 77%

Projects

Ecommerce site-Cloth Store:

Built LUXURIA, a premium MERN stack e-commerce clothing ecosystem with three panels (customer storefront, admin dashboard, delivery partner tracking), featuring Stripe payments, Leaflet maps, Zustand state management, and PDF analytics exports.
